

British Triassic palaeontology: new literature supplement 37

Since the completion of the previous supplement (No. 36; *Mercian Geologist*, **18**, 196) on British Triassic palaeontology the following works on or relating to aspects of that subject have been published.

- Benson, R.B.J., Evans, M. & Druckenmiller, P.S., 2012. High diversity, low disparity and small body size in plesiosaurs (Reptilia, Sauropterygia) from the Triassic-Jurassic boundary. *PLoS ONE*, **7**(3): e31838. doi:10.1371/journal.pone.0031838.
- Bridgland, D.A., Bennett, J.A., McVicar-Wright, S.E. & Scrivener, R.C., 2014. Rivers through geological time: the fluvial contribution to understanding of our planet. *Proceedings of the Geologists' Association*, **125**, 503-510.
- Coram, R.A. & Radley, J.D., 2015. Chirothere footprint sites from the Otter Sandstone Formation (Middle Triassic, late Anisian) of Devon, United Kingdom. *Ichnos*, **22**, 29-42.
- Duffin, C.J. 1996. New shark remains from the British Rhaetian (latest Triassic). 2. Hybodonts and palaeospinacids. *Neues Jahrbuch für Geologie und Paläontologie Monatshefte*, 1996, H.4, 157-181.
- Dunhill, A.M., Hannisdal, B. & Benton, M.J., 2014. Disentangling rock record bias and common cause from redundancy in the British fossil record. *Nature Communications*, **5** (4818). DOI: 10.1038/ncomms5818.
- Foffa, D., Whiteside, D.I., Viegas, P.A. & Benton, M.J., 2014. Vertebrates from the Late Triassic *Thecodontosaurus*-bearing rocks of Durdham Down, Clifton (Bristol, UK). *Proceedings of the Geologists' Association*, **125**, 317-328.
- Gallois, R.W., 2014. The position of the Permo-Triassic boundary in Devon, UK. *Geoscience in South-West England*, **13**, 328-338.
- Gill, P.G., Purnell, M.A., Crumpton, N., Robson-Brown, K., Gostling, N.J., Stampanoni, M. & Rayfield, E.J., 2014. Dietary specializations and diversity in feeding ecology of the earliest stem mammals. *Nature*, **512**, 303-305.
- Hart, M.B., 2014. The 'Otter Sandstone River' of the mid-Triassic and its vertebrate fauna. *Proceedings of the Geologists' Association*, **125**, 560-566.
- Heckert, A.B. & Lucas, S.G., 1999. Global correlation and chronology of Triassic theropods (Archosauria: Dinosauria). *Albertiana*, **22**, 22-35.
- Hunt, A.P., Lucas, S.G. & Spielmann, J.A., 2013. Triassic vertebrate coprolite ichnofaunas. *New Mexico Museum of Natural History and Science, Bulletin*, **41**, 237-258.
- Jones, M.E.H., Anderson, C.L., Hipsley, C.A., Müller, J., Evans, S.E. & Schoch, R.R., 2013. Integration of molecules and new fossils supports a Triassic origin for Lepidosauria (lizards, snakes, and tautara). *BMC Evolutionary Biology*, **13**, 208 (21pp.).
- Klein, C.G., Whiteside, D.I., Selles de Lucas, V., Viegas, P.A. & Benton, M.J., 2015. A distinctive Late Triassic microvertebrate fissure fauna and a new species of *Clevosaurus* (Lepidosauria: Rhynchocephalia) from Woodleaze Quarry, Gloucestershire, UK. *Proceedings of the Geologists' Association*, **126**(3), 402-416.
- Korneisel, D., Gallois, R.W., Duffin, C.J. & Benton, M.J., 2015. Latest Triassic marine sharks and bony fishes from a bone bed preserved in a burrow system, from Devon, UK. *Proceedings of the Geologists' Association*, **126**(1), 130-142.
- Korneisel, D., Gallois, R.W., Duffin, C.J. & Benton, M.J., 2015. Corrigendum to "Latest Triassic marine sharks and bony fishes from a bone bed preserved in a burrow system, from Devon, UK". [Proc. Geol. Ass. **126**(1) (2015) 130-142]. *Proceedings of the Geologists' Association*, **126**(2), 295.
